

Hi, I am Sai and I am running for Convenor of College of Engineering and Science.

Firstly, a convenor is a person who elects class reps, organises regular councils to solve issues faced in the college. I am first-year class rep and as a first-year class rep, I have organised various events such as a Halloween party, class hoodies and recently a movie night. You might have known about these events from the weekly SU mails.

Some of you may be wondering whether it is even worth my time voting for him,

Well I would like to tell you something, don't worry I won't take too long just two minutes.

I believe that with my dedication and commitment I can solve the issues that we are currently facing in our college. From a lack of seats in the concourse to insufficient computers in our pc suits, these issues need to be fixed ASAP, and I assure you that I will get these issues resolved.

If you want a change and you wish for your problems to be solved, then vote for me but if you want to stay the same, waiting in long queues for a microwave, unable to get a computer for our assignments, sitting on the floor waiting for your class in the concourse then vote for my competitors.

Vote for Change, Vote for Sai!

Sai for the convenor of College of Engineering and Science.

Any Questions?
